Hi Grisell, no borings / wells are scheduled to be installed on the PSEG right of way during this phase. In the next phase, if we go offsite, we probably will still not be drilling on their right of way because of the electrical cables. PSEG will need to stop the electricity flow through the cables in order for us to drill and that will require an act of GOD... We probably will look to be further offsite. Short answer - for this phase we will only drive the rig on their right of way. Juliana

Hi Grisell, Just spoke with Andy - we were scheduled to start at the locations that need to be accessed through the PSEG right-of-way tomorrow. We can delay for one day until Sat morning. After that, there will be cost ramifications for the driller. I have to go for a test with my dad tomorrow morning so I won't be available until 10-ish and after that I will be working at home. Please call Andy at his cell to let him know if we need to stop work. His cell phone number is 973 769 1473. If we don't hear anything to the contrary, we will proceed with the work on Sat. The right-of-way will only be used to access the locations. No wells will be installed on it. Thank you Grisell Juliana

I hung up with the guys from FedEx. The package will be delivered tomorrow. They hinted that the address was incomplete, but that's a story for any other day.

Ah, and they couldn't say if it is going to be delivered in the AM or PM. So, if it's not there by 3:00, give me another ring.

Juliana, there is a chance that work at the right-of-way must be delayed. Something came up with the access agreement. Please let me know how long can it be delayed with no cost involved.

Right-of-Way 

Hello Maureen.

Maureen, although your secretary told me about a month ago that the said document was going to mailed, I never received it. Can you verify that it was in fact mailed?

Thank you.

Hello, Maureen.

Maureen, what is the status of this? We need this document in place before starting work in the area.

FYI: I'll be in the office today until 5:30. I'll be back on Monday 3/24.

Thank you.

Maureen, can you please cc Clay Monroe on your draft? It's because I will not be in the office either tomorrow or Monday.

Thanks.

Grisell, our real estate department believes that the lot and block number should be as shown below. If you can verify this for me, we will finalize the draft of the ROE and return it to you for your consideration.

It is Block 285, Lot 1. We own it. It is an Electric Distribution Right of Way.
